

# TESTING YOUR CREEK

TAKE

ACTION

## BRAINSTORM

ideas about what you can do to help YOUR creek

Use the "Take Action" worksheet from the website to help

## 1 Ask questions

How healthy is my creek?

What can I do to help restore it?

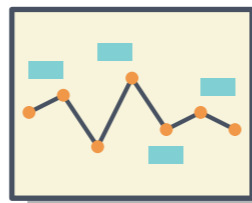

## 2 Test the water

- Go to the creek
- Collect data
  - observe
  - measure
- See Fish Creek 4061 for resources

## 4 Analyse results

- Record your results in a table
- Graph long-term results - can you see a trend in your data?

## 3 Interpret results

- Use the guidelines on the website to check your results

✓ Plant trees

✓ Start a recycling scheme

✓ Do a weed sweep

✓ Share what you've learned
